

SuiteApp for NetSuite

DCAA-on-Demand

When you are searching for targeted cloud-based solutions to modernize your enterprise, look to Daston. We will work with you to transform your business technology consulting and services that are implemented through our expert project management professionals (PMP).

Daston's DCAA-on-Demand SuiteApp is built for NetSuite and is the only cloud based, unified platform, available for companies that do business with the Federal Government.

With Daston's DCAA-on-Demand SuiteApp, you get:

- **One Platform Solution**
 - Single Vendor, built for NetSuite
- **Compliance with US Regulations**
 - Deep DCAA knowledge and experience built into the solution
- **Complexity Simplified**
 - Operate in compliance and be audit ready any time!

FAR and CAS Compliance.

The DCAA-on-Demand Solution was designed for Federal Contractors and consists of integrated modules with functionality designed by Federal Contractors:

- DCAA-Compliant Time Entry
- Payroll Cost Allocation
- Indirect Cost Allocation
- Job Costing
- GovCon Billing and Revenue Calculations (CPFF, FFP, T&M, etc.)

Daston is Your Trusted GovCon Accounting Partner

Daston stands as your GovCon Compliance Partner of Choice, boasting Subject Matter Experts (SMEs) well-versed in Federal Acquisition Regulation (FAR), Cost Accounting Standards (CAS), and adept at meeting Defense Contract Audit Agency (DCAA) requirements. With over 15 years of proven implementation success, Daston has a rich history of tailoring numerous ERP solutions specifically for Government Contractors. Daston is the exclusive provider of NetSuite's GovCon Essentials and DCAA-on-Demand SuiteApp technology, solidifying its position as the go-to solution provider. As a Certified NetSuite Software Developments (BFN) Partner, Daston brings a level of expertise that is unmatched. Notably, Daston's achievements include being selected Inc. Fast 5000 list of top companies in 2022 and 2023. With a track record of excellence, Daston stands out as your partner of choice for the only ERP solution on the market, delivering a comprehensive suite of services backed by industry recognition and certifications.

What's included in the DCAA-on-Demand SuiteApp:

DCAA Compliant Time Entry

Ensure accurate and compliant time entry by capturing detailed employee hours with job codes, labor categories, and task descriptions with DCAA SuiteApp. It includes validation rules, approvals, floor checks, and audit trails for maintaining integrity and accuracy of time records, facilitating DCAA compliance in timekeeping processes.

Indirect Cost Allocation

Organizations can easily allocate indirect costs accurately to jobs or projects by defining cost pools, applying allocation methods, and capturing relevant cost drivers with DCAA SuiteApp. It ensures compliant and precise indirect cost allocation for government contract accounting, including overhead, G&A, fringe benefits, and intermediate costs.

GovCon Billing and Revenue Calculations

DCAA SuiteApp handles GovCon billing by providing invoice generation features, and revenue calculations through accurate revenue through accurate revenue methods, enabling organizations to effectively manage billing and revenue for government contracts while ensuring compliance with DCAA regulations.

Government Contractors Trust Daston!

Daston's highly skilled team of NetSuite and Government Contracting experts are well-equipped for handling complex, large-scale projects, boasting a proven track record with government contractors.

Payroll Cost Allocation

Automates payroll cost allocation, and ensure accurate assignment of costs to jobs or projects while complying with DCAA regulations. DCAA SuiteApp supports multiple labor cost types and provides tools for managing and adjusting labor costs, maintaining transparency and auditability for government contracts.

Job Costing

DCAA SuiteApp enables precise job costing and financial visibility for government contracts. It allows users to allocate costs to specific jobs, track expenses and labor hours, and create budgets. The SuiteApp also captures indirect costs, applies burden rates, and reconciles project costs with general ledger accounts, ensuring compliance with DCAA regulations.

(CPFF, FFP, T&M)

The DCAA SuiteApp handles different contract types such as Cost-Plus-Fixed-Fee (CPFF), Firm-Fixed-Price (FFP) and Time-and-Materials (T&M) contracts by providing specific functionalities tailored to each contract type. It ensures accurate tracking, cost controls, and compliance with DCAA regulations for each contract type.

Project Status Report

DCAA SuiteApp enables comprehensive project status reporting by tracking and reporting on key project metrics in accordance with DCAA requirements. Users can capture and monitor cost performance, budget vs. actuals, and detailed labor/non-labor data, generating customizable reports and utilizing data visualization tools.

"One of the greatest benefits of Daston's DCAA-on-Demand SuiteApp is that it allows Government Contractors to obtain and maintain FAR and CAS system compliance that withstands DCAA and DCMA scrutiny." - *Client Confidential*
